

FRUIT PICKING TOOLS

BARNEL HT-B188 Series

The Barnel B188 Series Ultra-Reach fruit picker and pruner features a special cut and hold spring jaw mechanism which automatically adjusts to differing size cuts whilst retaining a firm hold on the stem without crushing.

Available in fixed lengths of 1.5m, 2.0m and a telescopic version; extendable from 1.8m to 3.0m.

TABOR HT-C12

Using high quality materials, the C-12 is one of the best citrus picking tools available. The double blade design allows the user to cut stems right at the base, without damaging the skin of the fruit.

BARNEL HT-V3100S

The 18cm V3100S is the short nose version of the V3001S. The V3100S classic design features serrated stainless steel blades for longer tool life.

BARNEL HT-V3100SC

The 18cm V3100SC is the curved blade, short nose picking snip. A classic design featuring stainless steel blades for longer tool life.

BARNEL HT-V3001S

The 19cm Barnel V3001S is the replacement for the popular Barnel B3000 picking snips. The V3001S classic design features stainless steel blades for longer tool life.

BARNEL HT-A3001S

The 19cm Barnel A3001S is a needle nose, fruit-picking snip. The A3001S is specially crafted for extended use in the viticulture industry.

BARNEL HT-B177Z

Pole mountable picking head with a specialised fruit catching bag underneath. Featuring an adjustable bag angle, U shaped cutting blade and a weight of only 800g.

AGRATI HT-OR

Olive harvesting rake featuring 9 curved plastic fingers across a 14cm wide rake and a mounting point for a broom handle should the user wish to harvest at height.

GALLI OLIVE NETS

Imported from Italy, these olive harvesting nets are of a very high quality. Featuring double stitching, a tight polyethylene weave and eyelets in each corner and every 2 metres.
