

# Professional grade UV stabilised polyurethane air hose.

PU tube and custom built hose reels.

Manufactured in Adelaide and fitted with imported, German made polyurethane air tube, the hose reels from Eclipse Enterprises are a must have for pneumatic tool operators. All hose reels can be customised with different lengths and variable diameters of polyurethane air hose to suit each users requirements. We also fit Nitto, Jamec, Ryco or European style fittings to suit. Three size reels are available:

### Heavy Duty Reel

Max. capacity of 250m of 8x6 air hose.

Available with brass swivels in 1/4 or 1/2 BSP sizes.

Powder coated steel drum

Heavily constructed zinc plated frame suitable for mounting on agricultural equipment and other applications

Drum size - 380 O.D. x 170 I.D. x 300 Wide.

### 50 and 35 Reels

Brass swivels suitable for 1/4 BSP fittings

Powder coated steel construction.

Heavily constructed zinc plated frame suitable for mounting on agricultural equipment and other applications.

**Shear hoses** are used to lengthen the life of your air hose and fittings. Usually 1m long but can be made to measure, shear hoses have a swivel hose protector attachment that fastens straight into the back of your air tool. The swivel allows for more maneuverability and avoids unnecessary fatigue whilst the hose protector stops the air tube from kinking. Our shear hoses are made from German PU (poly urethane) air tube and quality fittings like Nitto, Jamec, Ryco and European style to suit your rig.

## Polyurethane Hose Information

Order Code	Colour	Diameter	Weight per meter	Minimum bend radius	Pressure load limit
HE6x4	Blue	6mm x 4mm	19.92g	18mm	20°C:450psi
HE8x6	Yellow	8mm x 6mm	30.19g	30mm	20°C:370psi
HE10x8	Red	10mm x 8mm	41.92g	45mm	20°C:340psi
