

Leading the field in the development of **agricultural fastening** products and offering **unique solutions** for **trellis** and greenhouse crops. **AgriFast** is a subsidiary of **Simes**, created to incorporate all their horticultural **fastening products** and facilitate **new innovations**.

Professional fastening equipment manufactured to hold fast.

MODEL 140

The AgriFast Model 140 fastener is used to apply the AgriFast E-Series clips when fastening poly pipe or irrigation lines of varying diameters to wire in the Vineyard or Orchard. The AgriFast Model 140 is easy to use, hard wearing and serviceable.

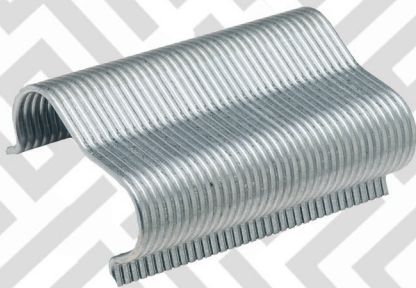

The model 140 has interchangeable magazines (sold separately) to suit E30, E40 & E45 size AgriFast irrigation clips.

MODEL 150

The AgriFast Model 150 fastener is used to apply the AgriFast E-50 clips when fastening poly pipe or irrigation lines to wire in the Vineyard or Orchard.

The Model 150, unlike the Model 140, has a fixed magazine. The AgriFast Model 150 is easy to use, hard wearing, serviceable and has fully replaceable parts.

AgriFast E Series clips

Model 140/240

E30 - Suits poly pipe between 10mm & 12mm outside diameter. 1000 units per packet. 8000 units per carton.

E40 - Suits poly pipe between 13mm & 15mm outside diameter. 650 units per packet. 5200 units per carton.

E45 - Suits poly pipe between 16mm & 20mm outside diameter. 650 units per packet. 5200 units per carton.

Model 150/240

E50 - Suits poly pipe between 21mm & 24mm outside diameter. 500 units per packet. 5000 units per carton.

Model 155/240

E55 - Suits poly pipe between 25mm & 28mm outside diameter. 575 units per packet. 2300 units per carton.

MODEL 155

The AgriFast Model 155 fastener is used to apply the AgriFast E-55 clips when fastening poly pipe or irrigation lines to wire in the Vineyard or Orchard.

The Model 155, unlike the Model 140, has a fixed magazine. The AgriFast Model 155 is easy to use, hard wearing, serviceable and has fully replaceable parts.

MODEL 240

The AgriFast Model 240 electronic fastener is used to apply the AgriFast E series clips when fastening poly pipe or irrigation lines to wire in the Vineyard or Orchard.

Using the same technology as Li-ion pruning shears, the Model 240 takes the effort out of repetitive clip application.
