RUBBER TIES

HOW TO APPLY

AgriFast Rubber Ties are heavy duty rubber bands with a hook at one end that allows you to wrap the band around the plant and stake, and then secure it by hooking into itself.

AgriFast UV-Stabilised Rubber Ties - Made from a non-toxic, vulcanised rubber compound with high quality anti-ozone elements and UV - stabilised making them re-usable for up to 3 to 5 years.

Rubber Ties are perfect for almost all horticultural tying applications that demand cost effectiveness and flexibility. AgriFast RubberTies come in 1kg bags with 20 bags to a carton.
